(b) The portion of joint facilities allocable for service under the present rate, and the basis of all allocations.

(c) The total cost of facilities, subdivision (a) plus subdivision (b), used in rendering service under the present rate.

If the original cost figures are not available and a reasonable estimate thereof cannot be prepared at the time, book amounts for the required property classifications may be submitted.

(iii) An estimate of the annual fixed charges, by major items, such as taxes, depreciation, and return, on the cost of the facilities included in (ii) (c) above.

(iv) A statement or estimate by main account classifications of the operating expenses showing:

Registration statements shall be filed in duplicate with the Foreign Agents Registration Section, Special War Policies Unit, Department of Justice, Washington, D. C. Filing may be made in person or by mail, and shall be deemed to have taken place upon the receipt thereof.

§ 5.201 Separate registration by each person required to register. (a) Except as hereinafter provided, the filing of a registration statement by a partnership, corporation, association, organization, or other combination of individuals, shall not remove the necessity of filing a registration statement by individual members, employees, associates and affiliates of such registrant, who are required to register under the Act.

(b) Upon application in writing by the partners, officers or persons acting for such combination of individuals, the Chief of the Special War Policies Unit may, in the interests of the national defense, internal security, and foreign re-

lations of the United States, and subject to such terms and conditions as those interests may require, consider the registration statement filed by such combination of individuals as the registration statement of each member, employee, associate and affiliate of such registrant. The Chief of the Special War Policies Unit shall set forth in a written statement the terms and conditions upon which any such single registration statement is to be considered as the statement required of the individual members, employees, associates and affiliates. Copies of any such applications filed with the Chief of the Special War Policies Unit, and copies of any such written statements by the Chief of the Special War Policies Unit shall be public records and open to public examination in accordance with the provisions of §§ 5.600 and 5.601.

Each of these forms requires the filing of certain exhibits among which is Exhibit "C", which requires the disclosure of information with respect to foreign principals and the activities of agents on behalf of such principals. A printed form is prescribed for Exhibit "C" and the necessary copies will be provided upon request. If an agent represents more than one foreign principal or performs any "political activity" as defined in § 5.100 on behalf of persons other than foreign principals, a separate Exhibit "C" shall be filed for each such foreign principal or other person.

(b) If any of the forms described in § 5.202 are not appropriate, the Chief of the Special War Policies Unit may designate a form to be used.

§ 5.203 Time within which registration statements must be filed. (a) Except as hereinafter provided, every person subject to the registration requirements of the Act on its effective date, June 28, 1942, shall file a registration statement pursuant to section 2 (a) and the rules and regulations before 6:00 p. m., Eastern War Time, July 8, 1942.

(b) Except as hereinafter provided, every person who becomes subject to the registration requirements of the Act after June 28, 1942, shall file such registration statement on or before the tenth day following the day on which such person becomes subject to the registration requirements. (c) Upon the filing of an application, in writing, by letter, telegram or cable, setting forth that a registration statement cannot be filed within the times set out in paragraphs (a) or (b) above, or that the requirements of those paragraphs would impose undue hardship, the Chief of the Special War Policies Unit may extend the times within which a registration statement shall be filed

for such period as will reasonably permit compliance with the registration requirements of the Act and Regulations. Applications filed pursuant to this paragraph shall set forth the reasons why the filing of a registration statement within the times specified cannot be complied with, or why it would create undue hardship.

§ 5.204 *Six-months supplements under section 2 (b).* Every registrant shall file a six-months supplement to his original registration pursuant to section 2 (b). Supplements to Form FA-1 shall be filed on Form FA-1-6M and supplements to Form FA-2 on Form FA-2-6M. All supplemental statements shall be filed in duplicate.

§ 5.205 *Language of registration statements, etc.* (a) All forms, statements, notices, supplements, amendments and other documents filed shall be in English whenever possible. If in a foreign language, they shall be accompanied by an English translation certified under oath by the translator before a notary public or other person authorized by law to administer oaths for general purposes, as a true and accurate translation.

(b) All answers to items on the forms shall be so worded as to be complete and intelligible without the necessity of referring to the instructions accompanying the particular form or to the rules and regulations.

(c) Except as specifically provided otherwise, if any item on any form is inapplicable, or the answer is "None", an express statement to such effect shall be made.

§ 5.206 *Oath; type; ink; etc.* (a) Every form, statement, notice, supplement and amendment, and every duplicate thereof, shall be executed under oath, in the manner set forth in section 2 (c).

§ 5.207 *Incorporation by reference; inserts.* (a) Matter contained in any part of a registration statement or statement filed pursuant to section 3 (f) and § 5.305, may be incorporated by reference as answer, or partial answer, to any item in the registration statement. In each case of incorporation by reference, the matter incorporated shall be clearly identified in the reference. An express statement shall be made to the effect that the specified matter is incorporated

in the registration statement at the particular place where the information is required. Notwithstanding the foregoing, the Chief of the Special War Policies Unit may refuse to permit such incorporation in any case in which in his judgment such incorporation would render the registration statement incomplete or confusing.

(b) Riders shall not be used. If the space provided on any form for the answer to any given item is insufficient, reference shall be made in such space to a full insert page or pages on which the item number and item shall be restated and the complete answer given.

(1) He engages in any activities which are not recognized by the Department of State as being within the scope of such person's functions;

(2) He, directly or indirectly, circulates or disseminates any political propaganda as defined in section 1 (j), which is in the form of prints, speeches, broadcasts, or in any other form reasonably adapted to being, and which he has reason to believe will be, or which he intends to be, circulated or disseminated to two or more persons within the United States, or any other American republic;

(3) He acts, or has agreed to act, as a security or an intelligence officer, or acts, or has agreed to act, in a related or similar capacity;

(4) He is employed, directly or indirectly, in furnishing information or advice pertaining to political or public interests, policies or relations (including information or data with respect to the political, industrial, employment, economic, social, cultural, or other benefits, advantages, facts, or conditions of any foreign country, the government of any foreign country, or any foreign political party), to any person other than officials of his government, the Government of the United States, or any other government which is not at war with the United States, and which is not aiding, or dominated by, any government at war with the United States or any of her Allies;

(5) Directly or indirectly, reporting or transmitting to any foreign principal any information the publication, dissemination, or transmission of which is forbidden or restricted in the interests of the national defense by the regulations or codes of practice in effect from time to time by the Office of Censorship, without the authority of an appropriate agency of the Government of the United States;

(d) *Provided,* That in no event shall the exemption provided by section 3 (b) be available to any citizen of the United States.

(2) In the soliciting or collecting of funds and contributions within the United States to be used only for medical aid and assistance, or for food and clothing, to relieve human suffering, if

such solicitation or collection of funds and contributions is in accordance with, and subject to, the provisions of the Act of November 4, 1939, as amended (54 Stat. 48), and such rules and regulations as may be prescribed thereunder (as provided in section 3 (d)), or

(3) In activities in furtherance of bona fide religious, scholastic, academic, or scientific pursuits, or the fine arts (as provided in section 3 (e)),

if he engages in any political activity as defined in § 5.100 on behalf of a foreign principal, on his own behalf, or on behalf of any other person, or engages in any other nonexempt activity.

(b) Any person who is an agent of a news service, radio news service, photo news service, or press service or association, organized under the laws of any foreign country or other place subject to the jurisdiction of any foreign country, or any newspaper, magazine, periodical or other publication published by a foreign principal shall be regarded as exempt under the provisions of section 3 (d) with respect to his activities as or for any such service, association or publication only if, and so long as, such activities are bona fide. Such activities shall be regarded as bona fide if the "political activity," as defined in § 5.100, engaged in by such person is confined to:

(1) The gathering and reporting of information which is reasonably adapted to being, and which he intends to be, used by any such service, association or publication, purely for news purposes, and not for the purpose of disseminating political propaganda;

(2) Broadcasting or writing for publication within the United States, concerning which the Foreign Agents Registration Section has previously been notified in writing, or the making of extemporaneous oral communications, which broadcasts, writings, or communications are not intended for the purpose of disseminating political propaganda;

(iv) Any such person transmits information by code or cipher or in any form in which the information transmitted is not reasonably intelligible; or

(v) Any such person engages in any activity set out in paragraph (a) (8) (viii) of § 5.100.

(c) This § 5.303 shall not be construed as fully defining the several activities which, if engaged in, make the exemption under section 3 (d) unavailable.

(d) As used in § 5.303, the term "trade or commerce" shall include the exchange, transfer, purchase, or sale of commodities, services, or property of any kind.

§ 5.304 Disclosure of identity under clause (2) of section 3 (f). (a) Disclosure of the identity of a person as an agent of a foreign principal in accordance with clause (2) of section 3 (f) shall be made at the beginning of each communication or expression referred to in said clause, and shall be by some means reasonably adapted to convey to the recipient:

(2) The fact that such person represents a government or is acting in the interests of a government, and the identity of the government or governments represented by such person in the publication, dissemination or circulation of such matter.

§ 5.305 Exemption under clause (3) of section 3 (f)—(a) General requirements. Except as hereinafter provided, the exemption provided by section 3 (f) shall be available to a person whose foreign principal is a government of a foreign country the defense of which the President deems vital to the defense of the United States only if there has been furnished to the Secretary of State for transmittal to the Foreign Agents Registration Section or, with the consent of the Secretary of State, to the Foreign Agents Registration Section, the following:

If any such communication is circulated or disseminated during any subsequent month,

it shall not be necessary to furnish copies of such communications for each additional month, and it shall be sufficient if there is furnished in the detail described above a statement concerning the further circulation or dissemination of each such communications;

(3) *Additional information.* Such other statements, information, or documents pertinent to the purposes of the Act as the Chief of the Special War Policies Unit of the Department of Justice may from time to time require with respect to the identity and activities of such person, or any group or organization of such persons referred to in paragraph (c) of § 5.305.

(b) *Waiver of requirements.* The Chief of the Special War Policies Unit may, upon application in writing, in the interests of the national defense, internal security, and foreign relations of the United States, and subject to such terms and conditions as those interests may dictate, waive, in writing, any or all of the requirements of paragraph (a) of § 5.305, with respect to any person, group or organization. Such waiver shall set forth the terms and conditions upon which it is granted. The filing of any such application for waiver will be deemed to be a compliance with the requirements of § 5.305 pending notification by the Chief of the Special War Policies Unit of his decision with respect to such application.

(c) *Form.* The statement referred to in paragraph (a) (1) of § 5.305 shall be furnished, in duplicate, to the Secretary of State on Form FA-3F. A separate statement shall be furnished on such Form with respect to each person referred to in paragraph (a) of § 5.305, except where two or more of such persons and employees are associated as an established group or organization engaged in activities as a unit. In such case, a statement with respect to such group or organization shall be furnished on Form FA-3F, and a separate statement need not be furnished with respect to any individual or person within the group or organization, unless such person engages independently of the group or organization in activities on behalf of his government for which no exemption is available except under section 3 (f).

(d) *Time within which form must be furnished.* Form FA-3F shall be furnished within the following specified periods:

(1) If the person is an agent on June 28, 1942, within thirty (30) days thereafter; or

(f) *Amendments and supplements to statements furnished*—(1) *Notice of change in statement under paragraph (a) (1)*. Within ten (10) days after any material changes occur in the information contained in a statement furnished pursuant to paragraph (a) (1) of § 5.305 relating to:

- (i) The activities of the agent,
- (ii) The agreements, charters, by-laws, or other documents under which he operates, or
- (iii) Officers, directors, or persons performing similar functions,

a statement setting forth such changes shall be furnished to the Secretary of State for transmittal to the Foreign Agents Registration Section, or, with the consent of the Secretary of State, to the Foreign Agents Registration Section.

(2) *Six-months supplements*. Within thirty (30) days after the expiration of each period of six months succeeding the date upon which a statement is furnished to the Secretary of State pursuant to paragraph (a) (1) of § 5.305, a statement shall be furnished to the Secretary of State for transmittal to the Foreign Agents Registration Section, or, with the consent of the Secretary of State, to the Foreign Agents Registration Section, setting forth current information with respect to each item set out in the original statement furnished. Six-months supplements shall be filed on Form FA-3F-6M.

(g) *Receipt of statements and amendments*. All statements, supplements and amendments submitted in accordance with § 5.305 will be deemed to have been furnished upon receipt thereof by the Secretary of State, or, if furnished directly to the Foreign Agents Registration Section, upon receipt by that Section.

(h) *By whom forms are to be executed*. Forms FA-3F, FA-3F-6M, and the statements to be furnished pursuant to paragraph (a) (2) of § 5.305 shall be executed by the individual agent or a majority of the partners, officers, or directors of the agent, or persons performing similar functions for the agent. In addition, Forms FA-3F and FA-3F-6M shall bear a certification that the agent on whose behalf the Form is filed is an agent of a particular government. Such certification shall be made by the person who, within the United States, is the head of the diplomatic mission of the government for which such person or employee is an agent, or by any responsible official of such government designated by the head of such diplomatic mission.

(i) *Effect of exemption under section 3 (a) through (e) inclusive*. Any person exempt under sections 3 (a), (b), (c), (d), or (e) shall not be required to comply with the provisions of § 5.305 of this Part.

(j) *Nonexempt activities; effect of compliance with rule*. The fact that the requirements of § 5.305 have been complied with with respect to a person shall not operate to relieve such person from

filing a registration statement pursuant to section 2 (a) or from complying with the provisions of section 4 or the Rules and Regulations, with respect to any nonexempt activity on behalf of any other foreign principal.

(k) *Employees*. The provisions of § 5.305 shall apply to any employee of any person described in paragraph (a) hereof.

(l) *Requirements of rule in addition to conditions of 3 (f)*. The requirements of § 5.305 shall be in addition to and not in substitution of the conditions set forth in clauses (1) and (2) of section 3 (f).

(1) A concise account of the nature of the matter filed.

(2) The medium by which such matter has been transmitted, all addresses from which, and the date or dates on which, transmitted.

(6) The nationality groups to which such matter is transmitted.

(7) The names and addresses of all publications printed in any language other than English which are designated to receive copies.

(8) If such matter is in the form of radio script, any part of which has been written or edited by, or at the direction of, the foreign agent, set forth the radio station from which the broadcast is made and the name of the broadcasting chain used, if any, and the date or dates when broadcast.

(9) Such additional information with respect to the places, times and extent of such transmittal, as the Chief of the Special War Policies Unit, having due regard for the national security and public interest, may require in any particular case.

(b) Any statement filed pursuant to paragraph (a) of § 5.400 may incorporate by reference any information set forth in a similar statement previously filed by the same person pursuant to paragraph (a). In such case, however, the statement previously filed shall be spe-

(c) Filing may be made in person or by mail and, except where made in person, shall be deemed to have taken place upon the deposit thereof in the mails properly addressed to the Foreign Agents Registration Section.

Such statement may be rendered monthly and may cover one or more of such items as have been circulated or disseminated subsequent to the filing of the statements required in paragraph (a). If such statement is rendered monthly, it shall be transmitted to the Foreign Agents Registration Section within ten days after the close of the calendar month for which such statement is made.

(2) That the distribution being made is on behalf of, or in the interests of, a specified principal or principals, and that copies of the material distributed have been (or are being) filed with the Foreign Agents Registration Section.

(3) That the filing of a registration statement with such Section should not be considered as any indication that the United States Government has approved the material being transmitted.

(f) All political propaganda which is orally transmitted by use of a means or instrumentality of interstate or foreign commerce shall be introduced by a statement, in the language or languages used in such oral transmission, which is reasonably adapted to convey to the recipient or recipients thereof all of the facts set forth in paragraph (e) above.

§ 522.163 *Definitions of terms.* (a) "New plant" means a plant which is newly established and is being operated for the first time, or which has not been operated more than eight months and in which a substantial number of workers must be trained for the manufacture of the products of the plant.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

PART 608—EXPENDITURES OTHER THAN FOR PERSONAL SERVICES

[Amendment 65, 2d Ed.]

LEASE AND IMPROVEMENTS OF OFFICES

By authority vested in me as Director of Selective Service under 54 Stat. 885; 50 U.S.C., Sup. 301-318, inclusive; E.O. 8545, 5 F.R. 3779, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 608.11¹ to read as follows:

§ 608.11 Lease of Offices. (a) When practicable, and when consistent with over-all and continuing long-range economy, the offices of State Headquarters, local boards, and boards of appeal should be located in rent-free premises.

(b) When premises for offices are not secured rent free, the State Director of Selective Service may authorize the renting of premises. Rental contracts shall be prepared and reported in the manner directed by the Director of Selective Service. No contract shall be entered into for a stipulated rental in excess of \$2,000 per annum except by and with the approval of the Director of Selective Service.

Amend the regulations by inserting a new section to be known as § 608.12 to read as follows:

§ 608.12 Alterations, improvements, and repairs. (a) The State Director of Selective Service may authorize in writing alterations, improvements, and repairs to State Headquarters, local board, and board of appeal premises in an accumulated amount not to exceed \$100 per premises: *Provided*, That in the case of rented premises (premises occupied on a basis other than rent free or at a nominal rental), no sum may be obligated or expended in excess of 25 per centum of the amount of the rent for the first year of the rental term, or for the rental term if less than one year. The value of special services, such as heat, light, and janitor services, shall not be considered a part of the base rental on which such 25 per centum is computed.

(b) No funds may be obligated or expended for alterations, improvements, or repairs of premises occupied by State Headquarters, local boards, or boards of appeal in excess of the sum authorized in paragraph (a) of this section unless and until specifically approved in writing by the Director of Selective Service.

The foregoing amendments to the Selective Service Regulations shall be effective July 1, 1942.

Subchapter B—Division of Industry Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-59]

EASTERN SMELTING AND REFINING CORP.

Eastern Smelting and Refining Corp. of Boston, Massachusetts, is a processor of mercury. Under Conservation Order M-78, between January 15 and March 31, 1942, and during each calendar quarter thereafter, it was permitted to process for health supplies purposes only 1,771 pounds of mercury and to process for the uses specified in paragraph (d) of the order, only 619 pounds, of mercury. Despite this limitation, the Company, between January 15 and March 31, 1942, processed 3,370 pounds of mercury for health supplies purposes and 2,380 pounds

of mercury for the uses specified in paragraph (d) of Conservation Order M-78. Furthermore, during the second quarter of 1942, the Company processed at least 1,133 pounds of mercury for the uses specified in paragraph (d) of Conservation Order M-78.

These violations of Conservation Order M-78 have impeded and hampered the war effort of the United States and have permitted the Company to operate under more favorable conditions of competition than its competitors, thereby obstructing the impartial administration of the priorities system. In view of the foregoing facts

It is hereby ordered, That:

§ 1010.59 Suspension Order S-29. (a) During each calendar quarter Eastern Smelting and Refining Corp., its successors and assigns, shall limit its use of mercury for any of the purposes specified in paragraph (c) of Conservation Order M-78 to 50% of the mercury used by it for such purpose during the first quarter of 1941.

(b) During each calendar quarter Eastern Smelting and Refining Corp., its successors and assigns, shall limit its use of mercury for any of the purposes specified in paragraph (d) of Conservation Order M-78 to 40% of the mercury used by it for such purpose during the first quarter of 1941.

(c) The prohibitions and restrictions contained in paragraphs (a) and (b) of this section shall not apply to the use of mercury for any of the purposes specified in paragraph (e) of Conservation Order M-78.

(d) Nothing contained in this order shall be deemed to relieve Eastern Smelting and Refining Corp., from any restriction, prohibition or provision contained in any other order or regulation of the Director of Industry Operations except insofar as they may be inconsistent with the provisions hereof.

(e) This order shall take effect on July 1 and expire on December 31, 1942, at which time the restrictions contained in this order shall be of no further effect. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. For the purpose of this paragraph (b) (3), the dollar value of such material ordered by each producer during each quarter shall include a value of coal and coke not based upon the actual value of coal and coke ordered during such quarter, but equal to the dollar value of one-fourth of the coal and coke used or consumed by the producer during the period July 1, 1941 to June 30, 1942;

Paragraph (g) is hereby amended to read as follows:

DISCRIMINATION AMONG CONSUMERS; APPLICATIONS FOR SUPPLEMENTAL RATION

Section 1394.23² is amended to read, and new paragraphs (j) and (k) are added to § 1394.43, as set forth below:

Restrictions on Transfer and Use

§ 1394.23 *Discrimination among consumers.* (a) No dealer, dealer outlet or supplier shall discriminate, in the transfer of gasoline, among consumers lawfully entitled to acquire gasoline pursuant to Ration Order No. 5.

(b) Notwithstanding the provision of paragraph (a) of this section, any dealer, dealer outlet or supplier whose supply of gasoline is not sufficient to meet all consumer demands, may give preference, in the transfer of gasoline, to the following classes of consumers:

- (1) Defense workers, as hereinafter defined.
- (2) Trucks.
- (3) Ambulances.

As a condition upon the right of any dealer, dealer outlet or supplier to give such preference, the dealer, dealer outlet or supplier shall post a conspicuous notice indicating that he has designated his establishment as one at which such class or classes of consumers are preferred. A dealer, dealer outlet or supplier shall post such a notice at each of his establishments he has so designated and each notice shall specify which class or classes of consumers are to be preferred. Immediately upon the posting of such notice or notices a dealer, dealer outlet or supplier shall mail a copy of each such notice to the state office of the Office of Price Administration in the state or states where his establishment or establishments are located.

For the purposes of this paragraph, "defense worker" means a worker (including an executive, technician or office worker) employed at any establishment or facility listed below:

- (i) A naval, military, or hospital establishment or facility.
- (ii) An establishment or facility of common carriers; or of plants engaged in the production or distribution of heat, light, power, gas, steam or water; or of irrigation or sanitation systems; or of telephone, telegraph, radio or other communication systems.

Adjustments, Applications for Supplemental Ration and Appeals

§ 1394.43 Applications for supplemental ration. * * *

(j) Any person requiring the use of gasoline for carrying on *bona fide* experimental work or tests which contribute to the war effort may apply for a supplemental ration of gasoline sufficient for such purposes. Such application shall be made on Form OPA R-512, with appropriate modifications. The applicant shall describe the nature of such experimental work or tests in detail, so far as may be consistent with a necessity for secrecy, and shall submit, in support of his application, evidence that such work will contribute to the war effort. The Board may grant such application if it finds that the experimental work or tests are *bona fide*, and, if successful, will contribute to the war effort, and that a supplemental ration is essential to carrying on or continuance of such work. If it grants the application, the Board shall determine the amount of gasoline essential to such purpose from the date of its decision through July 14, 1942, and shall issue to the applicant an A, B-1, B-2, or B-3 card, or any combination of them, in sufficient number to allow the minimum quantity of gasoline so determined to be essential.

(k) Any person requiring the use of a motor vehicle or motor vehicles for transporting the personnel and equipment of a scientific expedition organized or sponsored by a recognized scientific or educational institution or organization may apply for a supplemental ration of gasoline sufficient for such purposes. Such application shall be made on Form OPA R-512, with appropriate modification. The application shall state the purpose of the expedition and the reasons why the undertaking is in the public interest, the amount of mileage essential and the reasons why no other form of transportation would be adequate. If the Board finds that the expedition is in the public interest that no other form of transportation would be adequate and that the purpose can not be accomplished without the issuance of a supplemental ration, the Board shall determine the amount of gasoline essential to such purpose from the date of its decision through July 14, 1942 and shall issue an A, B-1, B-2 or B-3 card, or any combination of them in sufficient number to allow the minimum quantity of gasoline so determined to be essential.

PART 1499—COMMODITIES AND SERVICES

[Maximum Price Regulation 165]

CONSUMER SERVICE

In the judgment of the Price Administrator the prices of consumer services generally have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942.

In the judgment of the Price Administrator the maximum prices established by this Regulation, which apply with certain exceptions to all consumer services not otherwise subject to regulation, are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act.

So far as practicable the Price Administrator has given due consideration to prices prevailing between October 1 and 15, 1941, and to relevant factors of general applicability. So far as practicable the Price Administrator has consulted with representatives of trade and industry.

A statement of the considerations involved in the issuance of this Regulation is issued simultaneously herewith and filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, this Maximum Price Regulation No. 165—Consumer Service is hereby issued.

AUTHORITY: §§ 1499.101 to 1499.121 incl., issued under Pub. Law. 421, 77th Cong.

NOTE: The meaning of certain provisions and terms of Maximum Price Regulation No. 165 is further explained and defined in section 1499.116. The explanations and definitions are set forth in alphabetical order. The terms explained and defined are in quotation marks the first time they appear in the text.

§ 1499.101. *Prohibition against dealing in consumer services above maximum prices.* On and after July 1, 1942, regardless of any contract or other obligation:

(a) No "person" shall "sell" or supply any "consumer service" at a price higher than the maximum price permitted by Maximum Price Regulation No. 165;

(b) No person in the course of trade or business shall buy or receive any consumer service at a price higher than the maximum price permitted by Maximum Price Regulation No. 165: *Provided*, That the provisions of this paragraph (b) of this section shall not be applicable to any war procurement agency or any contracting or paying finance officer thereof and any such agency or contracting or paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this Regulation or by the Emergency Price Control Act of 1942. "War procurement agency" as used in this paragraph, includes the War Department, the Department of the Navy, the United States Maritime Commission, and the Lend-Lease Section of the Procurement Division of the Treasury Department, or any agency of the foregoing.

§ 1499.102 *Maximum prices for consumer services: General provisions.* Except as otherwise provided in Maximum Price Regulation No. 165, the seller's maximum price for any consumer service shall be:

(a) *In those cases in which the seller supplied the same or similar consumer services during March 1942.* The highest price charged by the seller during such month:

(1) For the same consumer service; or

(2) If no charge was made for the same consumer service, for the similar consumer service most nearly like it; or

(b) *In those cases in which the seller did not supply the same or similar consumer services during March 1942.* The highest price charged during such month by the "most closely competitive seller of the same class":

(1) For the same consumer service; or

(2) If no charge was made for the same consumer service, for the similar consumer service most nearly like it.

(c) *In those cases in which neither the seller nor a seller closely competitive with him supplied the same or a similar consumer service during March 1942, but the seller supplied a comparable consumer*

service during such month.

The seller's maximum price for any consumer service shall be the highest price which he would have charged for such consumer service during March 1942. This maximum price shall be determined by applying the "pricing method," charges, and rates adopted in March 1942 by the seller to arrive at the price of the comparable consumer service most nearly like the consumer service for which a price is sought, adjusted to compensate for all differences in quantity and kind in the items used to determine the price of such service.

Highest Price Charged During March 1942

For the purposes of Maximum Price Regulation No. 165, the highest price charged by a seller during March 1942 shall be:

The highest price which the seller charged for a consumer service "supplied" by him during March 1942; or

If the seller supplied no such consumer service during March 1942 his highest "offering price" for supply during that month. No seller shall change his customary allowances, discounts or other price differentials unless such change results in a lower price. The "highest price charged" shall be a price charged during March 1942 to a "purchaser of the same class." But if during March 1942 a seller (1) had an established practice of making allowances, discounts or price differentials to different classes of purchasers, and (2) raised his general level of prices, but thereafter during March 1942 made no delivery to any purchaser of a particular class, he shall, for that particular class of purchasers calculate the highest price charged by taking the highest price charged during March 1942 to a purchaser of another class and then adjusting such price to reflect his established allowances, discounts and price differentials. No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation cost incurred in the supply of any consumer service, than the seller required purchasers of the same class to pay during March 1942 for supplying the same or similar types of consumer services.

Similar Consumer Services

One consumer service shall be deemed "similar" to another consumer service if the first has the same use and purpose as the second and belongs to a type which would ordinarily be supplied for the same or substantially the same price.

Comparable Consumer Services

If consumer service "A" has the same use and purpose as consumer service "B" and is customarily priced by the same pricing method as consumer service "B", although its price as determined by such pricing method is not the same or substantially the same, it shall be deemed "comparable" to consumer service "B".

§ 1499.103 Maximum prices for consumer services which cannot be priced

under § 1499.102, and for seasonal consumer services—(a) *Prices for consumer services which are not subject to seasonal variations and which are performed by persons operating during more than one season of the year.* The seller's maximum price for such services which cannot be priced under § 1499.102 of Maximum Price Regulation No. 165 shall be a price not in excess of the price which would have been charged had the service been supplied in March 1942. The price shall be determined by applying the pricing method adopted for any other service or type of service supplied by the seller during March 1942 and shall not exceed a combination of the following items:

(1) An item for cost of direct labor used in supplying the service for which a price is sought, computed on a basis no higher than the highest wage rate which the seller had in effect for each type of employee during March 1942, or if he had no wage rate in effect during such month, the highest wage rate which his competitors in the same area had in effect for each type of employee during March 1942, plus

(2) An item for cost of materials used in supplying the service for which a price is being determined, computed on a basis no higher than the maximum prices, for purchase by the seller, established for such material by the Office of Price Administration, or if no maximum price has been established, then the highest price which the seller, or a purchaser of the same class, had to pay for such material in the month of March 1942, plus

(3) The margin over such cost for direct labor and materials (i. e., subparagraph (1) plus subparagraph (2)) equal, as a percentage of cost, to the average margin over direct labor and material cost which was figured on the consumer service or type of consumer service for which a price was charged, listed, or quoted by the seller during March 1942, and which accounted for a greater portion of the seller's gross income from consumer services than any other such services during March 1942, less

(4) All discounts and other allowances granted during March 1942 to a purchaser of the same class.

(b) *Consumer services subject to seasonal variations in price.* In the case of consumer services for which there is a regularly established seasonal variation in price, the seller's maximum price shall be the highest price charged during the corresponding season of the year from March 1, 1941, to February 28, 1942, inclusive, for the same service or the similar service most nearly like it, plus an amount equal to that price multiplied by the percentage increase in the cost of living between the last period¹ of the corresponding season and March 1942.¹

(c) *Consumer services not performed in March 1942 and performed only during one season of the year March 1, 1941, to February 28, 1942.* In the case of such services for which a maximum price cannot be established under § 1499.102 of Maximum Price Regulation No. 165 and which services are performed regularly

during only one season of the year, the seller's maximum price shall be the highest price charged during the last period¹ previous to March 1942 in which the service was supplied plus an amount equal to that price multiplied by the percentage increase in the cost of living between that last period¹ and March 1942.¹

(d) *Reports.* Within ten days after determining a maximum price under paragraphs (a), (b), or (c) of this § 1499.103 the seller shall report such price to the "appropriate field office of the Office of Price Administration" upon Form No. 265:1 if the price is determined under paragraph (a), and upon Form No. 265:2 if the price is determined under paragraphs (b) or (c). Such form shall be duly filled out in duplicate and filed under oath or affirmation and may be copied from the forms contained in Appendices A and B, §§ 1499.120 and 1499.121, of this Maximum Price Regulation No. 165 or secured from the appropriate field office of the Office of Price Administration. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(e) *Similar consumer services subsequently sold.* Any maximum price determined under paragraphs (a), (b), or (c) of this section shall be the maximum price for all services subsequently sold which are the same or similar to the service for which a maximum price has been so determined, without regard to subsequent changes in cost.

§ 1499.104 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after April 28, 1942, and the transferee carries on the business, or continues to supply the same type of consumer services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligations to keep records sufficient

¹ *Percentage increase in cost of living.* The percentage used shall be as follows for the applicable period:

Percentage:	Period
12.9% (0.129)	Mar. 1, 1941, to Apr. 14, 1941, inc.
11.8% (0.118)	Apr. 15, 1941, to May 14, 1941, inc.
11.1% (0.111)	May 15, 1941, to June 14, 1941, inc.
9.3% (0.093)	June 15, 1941, to July 14, 1941, inc.
8.5% (0.085)	July 15, 1941, to Aug. 14, 1941, inc.
7.6% (0.076)	Aug. 15, 1941, to Sept. 14, 1941, inc.
5.7% (0.057)	Sept. 15, 1941, to Oct. 14, 1941, inc.
4.6% (0.046)	Oct. 15, 1941, to Nov. 14, 1941, inc.
3.7% (0.037)	Nov. 15, 1941, to Dec. 14, 1941, inc.
3.4% (0.034)	Dec. 15, 1941, to Jan. 14, 1942, inc.
2.1% (0.021)	Jan. 15, 1942, to Feb. 14, 1942, inc.
1.2% (0.012)	Feb. 15, 1942, to Feb. 28, 1942, inc.

to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 165.

§ 1499.105 *Federal and State taxes.* Any tax upon, or incident to, the supplying of a consumer service, imposed by any statute of the United States or statute or ordinance by any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such consumer service and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during March 1942.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during March 1942 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 165.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum prices under Maximum Price Regulation No. 165.

(b) *As to a tax or increase in a tax which becomes effective after March 31, 1942.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1499.106 *Less than maximum prices.* Lower prices than those established by Maximum Price Regulation No. 165 may be charged, demanded, paid or offered.

CONSUMER SERVICES EXCEPTED FROM THIS REGULATION

§ 1499.107 *Consumer services excepted from Maximum Price Regulation No. 165.* The provisions of this regulation shall not

apply to the services set forth in Supplementary Regulation No. 11² to the General Maximum Price Regulation³ and any amendments thereto.

RECORDS AND REPORTS

§ 1499.108 Base-period records and reports. Every person selling consumer services for which, upon sale by that person, maximum prices are established by Maximum Price Regulation No. 165 shall:

(a) Preserve for examination by the Office of Price Administration all his existing "records" relating to the prices which he charged or pricing methods which he used for such of those consumer services as he supplied during March 1942, and his offering prices for supply of such consumer services during such month; and

(b) Prepare on or before September 1, 1942, to the full extent of all available information and records, and thereafter keep for examination by any person during ordinary business hours, a statement showing:

(1) The highest prices which he charged for consumer services supplied during March 1942 for which prices were regularly quoted in that month;

(2) The pricing method, if any, regularly used during March 1942; and

(3) All his customary allowances, discounts, and other price differentials.

A duplicate of this Statement shall be filed, on or before September 10, 1942, with the "appropriate War Price and Rationing Board of the Office of Price Administration."

§ 1499.109 Non-disclosure of base-period records. Any person, other than a person selling at retail, who claims that substantial injury would result to him from making the statement provided for in § 1499.108 (b) of this regulation available to any other person, need only file the statement with the appropriate War Price and Rationing Board of the Office of Price Administration, accompanying it with an affidavit that disclosure would result in substantial injury. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of Maximum Price Regulation No. 165.

§ 1499.110 Sales slips and receipts. Any seller who has customarily given a purchaser a sales slip, receipt, or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, the name of each consumer service sold, and the price received for it.

LICENSING AND REGISTRATION

§ 1499.111 Licensing—(a) License required: A license as a condition of selling, is hereby required of every person subject to this regulation now or hereafter selling a consumer service for which a maxi-

mum price is established by this Maximum Price Regulation No. 165.

(b) *License granted:* Every person subject to this regulation now or hereafter selling a consumer service for which a maximum price is established by this Maximum Price Regulation No. 165 is hereby granted a license as a condition of selling any such consumer service. Such license shall be effective on July 1, 1942, the effective date of this regulation, or when any person becomes subject to the maximum price provisions of this regulation, and shall, unless suspended as provided by the Act, continue in force so long as and to the extent that said regulation or any amendment or supplement thereto remains in force.

(c) *Licensing section of General Maximum Price Regulation superseded.* This section supersedes the provisions of § 1499.16 of the General Maximum Price Regulation³ insofar as said section may be applicable to persons selling any consumer service.

§ 1499.112 Registration of licensees. Every person hereby licensed may be required to register with the Office of Price Administration at such time and in such manner as the Administrator may hereafter by regulation prescribe.

§ 1499.113 Penalties. Persons violating any provision of Maximum Price Regulation No. 165 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, and proceedings for the suspension of licenses.

§ 1499.114 Applications for adjustment by sellers. (a) Any seller who finds that the maximum price of a consumer service established for him under the provisions of §§ 1499.102 or 1499.103 is abnormally low in relation to the maximum prices of the same or similar consumer services established for other sellers, and that this abnormality subjects him to substantial hardship, may file an application for adjustment of that maximum price in accordance with Temporary Procedural Regulation No. 5⁴ issued June 23, 1942, by the Office of Price Administration.

(b) Any seller, who finds that the maximum price of a consumer service established for him under the provisions of §§ 1499.102 or 1499.103 subjects him to substantial hardship because of cost increases (1) incurred between February 1, 1942, and April 27, 1942, not reflected in the prices which are established for him under the above provisions, including any increase subsequent to April 27, 1942 resulting from a collective bargaining contract or other wage agreement which contract or agreement (i) was entered into on or prior to April 27, 1942, and (ii) provides for an unconditional increase in wage rates of a fixed amount or percent, and (2) where such cost increases threaten the continued supply of the consumer service, may file an application for adjustment of that maximum price in accordance with Temporary Procedural

Regulation No. 5⁴ issued June 23, 1942, by the Office of Price Administration.

§ 1499.115 Petitions for amendment. Any person seeking a modification of any provision of Maximum Price Regulation No. 165 or an adjustment not otherwise provided for, may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1⁵ issued by the Office of Price Administration.

DEFINITIONS AND EXPLANATIONS

§ 1499.116 Definitions and explanations.—(a) When used in Maximum Price Regulation No. 165:

(1) "Appropriate description and identification" means a complete listing of the specifications, process, and other characteristics of the service, or of the various grades of services.

(2) "Appropriate field office of the Office of Price Administration" means the district office for the district (or in the absence of such district office, the state office for the State) in which is located the seller's place of business from which his sales are made.

(3) "Appropriate War Price and Rationing Board" means the War Price and Rationing Board for the area in which is located the seller's place of business from which the consumer services are offered for sale.

(4) "Consumer service" means any service when sold to an ultimate consumer other than an industrial or commercial user, whether sold directly or through any other person to such ultimate consumer, or integrated with further servicing sold by the person with whom such ultimate consumer contracts. A service supplied to a farmer shall be considered a consumer service.

(5) "Most closely competitive seller of the same class". "Seller of the same class" means a seller (i) performing the same function (for example, manufacturing, distributing, retailing, processing, storing, installing, or repairing), (ii) of similar type (for example, cash and carry, pick-up and delivery, chain store, specialty shop, cut-rate store), (iii) dealing in the same type of consumer service, and (iv) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (a) is selling the same or a similar consumer service, and (b) is closely competitive in the sale of such consumer services, and (c) is located nearest to the seller.

(6) "Offering price" means the price quoted in the seller's price list, or, if he had no such price list, the price which he regularly quoted in any other manner, or the price determined by the pricing method which the seller regularly adopted. But "offering price" shall not include a price intended to withhold a consumer service from the market, or a price offered as a bargaining price by a seller who usually sells at a price lower than his asking price.

(7) "Person" includes an individual, corporation, partnership, association, or

any other organized group of persons, legal successor or representative of any of the foregoing, and includes the United States, any agency thereof, any other government, or any of its political subdivisions, and any agency of any of the foregoing.

(8) "Pricing method" means the formula by which the seller figures his price for any consumer service, whether such formula is disclosed to the purchaser or is merely the seller's device for figuring cost of labor and materials, other costs, and margin of profit.

(9) "Price regulation" means a price schedule effective in accordance with the provisions of Section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation issued by the Office of Price Administration, or any order issued pursuant to any such regulation or schedule.

(10) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for consumer services for sales to different purchasers or kinds of purchasers (for example, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or grades or under different conditions of sale.

(11) "Records" includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(12) "Sale at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user. Sales to farmers shall be considered sales at retail.

(13) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and delivery, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser", shall be construed accordingly. Nothing in this Maximum Price Regulation No. 165 shall be construed to prohibit the making of a contract to sell a consumer service at a price not to exceed the maximum price at the time of supply.

(14) "Seller" includes a seller of any consumer service. Where a seller supplies consumer services through more than one selling unit, other than salesmen making sales at uniform prices, each separate place of business of the seller shall be deemed to be a separate seller, except that for the purposes of § 1499.111 of this Maximum Price Regulation No. 165, the owner of the business shall be considered the seller regardless of the number of separate places of business he owns.

(15) "Service" includes any service rendered or supplied, otherwise than as an employee, in connection with the processing, distribution, storage, installation, repair, or negotiation of purchase or sale of a commodity, and generally, without limiting the foregoing, all services which preserve or add to the value or utility of a commodity.

(16) "Supplied". A service shall be deemed to have been "supplied" during March, 1942, if during such month it was completed.

OTHER PRICE REGULATIONS, APPLICABILITY, EFFECTIVE DATE

§ 1499.117 Effect of other price regulations. This Maximum Price Regulation No. 165 shall not apply to any sale of services other than consumer services, nor to consumer services for which a maximum price is in effect under the provisions of any other specific "price regulation" issued or which may be issued by the Office of Price Administration, except as otherwise provided in any such price regulation.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 202—MINIMUM WAGE DETERMINATIONS

COTTON GARMENT AND ALLIED INDUSTRIES MODIFICATION OF MINIMUM WAGE DETERMINATION

This matter is before me pursuant to section 1 (b) of the act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Supp. III, 35) entitled, "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and

for other purposes" otherwise known as the Walsh-Healey Public Contracts Act.

On November 26, 1941, the Administrator of the Division of Public Contracts of the Department of Labor issued a notice of an opportunity to show cause (6 F.R. 6003) why I should not modify the determinations In the Matter of the Prevailing Minimum Wage in the Cotton Garment and Allied Industries by finding that the prevailing minimum wage for persons now employed in that industry, as defined in the determination of July 28, 1937, as amended, has ceased to be 37½ cents per hour and is now 40 cents per hour or \$16 for a week of 40 hours.

The notice sets forth that (1) wage orders issued by the Administrator of the Wage and Hour Division pursuant to the Fair Labor Standards Act provide that not less than 40 cents an hour be paid by every employer to each of his employees who is engaged in interstate commerce or in the production of goods for such commerce in the Single Pants, Shirts and Allied Garments Industry, the Sportswear and Other Odd Outerwear Division of the Apparel Industry, and the Women's Apparel Industry; (2) substantially all manufacturers of the products covered by these wage orders are engaged in interstate commerce or in the production of goods for interstate commerce and are, therefore, subject to the wage orders; (3) these wage orders include within their coverage all articles (with the exception of certain enumerated products) covered by my previous determinations In the Matter of the Prevailing Minimum Wage in Cotton Garment and Allied Industries, and (4) the afore-mentioned wage orders of the Administrator of the Wage and Hour Division have had the effect of establishing 40 cents an hour as the prevailing minimum in the manufacture of the products included in the Determination of the Prevailing Minimum Wage in the Cotton Garment and Allied Industries with the exception of the enumerated products which are manufactured under a similar wage structure.

The interested parties were also given the opportunity to show why I should not modify the determinations In the Matter of the Prevailing Minimum Wage in the Cotton Garment and Allied Industries to provide that the applicable regulations for the employment of learners and handicapped workers issued by the Administrator of the Wage and Hour Division pursuant to the Fair Labor Standards Act should apply to contracts awarded subject to this determination.

Notice of opportunity to show cause was sent to trade unions, trade publications and trade associations. Notice was also given to interested parties through the national press and by publication in the FEDERAL REGISTER as indicated above.

No objections or protests have been received to the proposed coordination of the minimum wage requirements of the two acts or of the standards under the two acts concerning the employment of learners and handicapped workers in the Cotton Garment and Allied Industries.

¹ 7 F.R. 3724, 3942, 4410, 4988, 4543, 4660.
² 7 F.R. 3153, 3330, 3666.

Some objections have been directed to the terms and conditions under which learners may be employed. I believe, however, that the regulations which have been issued by the Administrator under the Fair Labor Standards Act on June 20, 1942, covering the employment of learners, and the regulations applicable to the employment of handicapped persons under the Fair Labor Standards Act (Regulations, Part 524) are reasonable and consistent with the Administrative policy under the Public Contracts Act and I, therefore, adopt these regulations for the purposes of this determination.

It also appears advisable to redefine the Cotton Garment and Allied Industries for the purpose of making the definition of that industry conform more closely with the definitions of the Single Pants, Shirts, and Allied Garments Industry, the Sportswear and Other Odd Outerwear Division of the Apparel Industry, and the Women's Apparel Industry as prescribed by the wage orders for such industries under the Fair Labor Standards Act of 1938.

Upon consideration of all the facts and circumstances, I hereby determine that:

§ 202.2 *Cotton garment and allied industries.* (a) The Cotton Garment and Allied Industries shall be understood to be that industry which manufactures or furnishes any of the following commodities:

Trousers, knickers, work pants, and breeches (except when made wholly of wool and uniform trousers and breeches made wholly or partially of wool); dress or work shirts and nightwear of any material except knit fabric; overalls, overall jackets, and one-piece overall suits; work coats and work jackets (except wool and wool-lined, and leather and sheep-lined); washable service apparel (hospital, professional, etc.); other cotton outerwear of any material except knit fabric; barrack bags; bandoleers; ammunition and cartridge belts made of textiles; canvas leggins; cot covers; fabric punches and carriers for first aid equipment, such as: kit candle ring straps, kit inserts, kit laces, kit pouches and kit suspenders; mattress covers; mosquito bars; and wardrobe bags with draw-strings, made of textiles.

(b) The prevailing minimum wage for persons employed in the performance of contracts with agencies of the United States Government, subject to the provisions of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. Supp. III, 35) for the manufacture and furnishing of the products of the Cotton Garment and Allied Industries shall be 40 cents per hour or \$16 per week of 40 hours, arrived at either upon a time or piecework basis.

Provided. That learners and handicapped workers may be employed at submini-

mum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act which I hereby adopt for the purposes of this determination.

This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after July 20, 1942.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any wage order thereunder, or under any other law, or agreement, more favorable to employees than the requirements of this determination.

Dated: June 20, 1942.

CHICAGO RIVET & MACHINE COMPANY COMMON STOCK, \$4 PAR VALUE
ORDER REOPENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23rd day of June, A. D. 1942.

An application having been filed by Chicago Rivet & Machine Company for the termination of unlisted trading privileges, on the New York Curb Exchange, in the applicant's common stock; hearings having been held, at which said exchange appeared in opposition to the application; briefs having been filed and argument held before the Commission; and

The Commission having, on December 4, 1941, issued and filed its findings and opinion in this matter in which it concluded that the character of trading on said exchange in the subject security was such that, if the unit of trading therein were not reduced from 100 shares to 25 shares or less, termination of unlisted trading privileges therein would be appropriate in the public interest and for the protection of investors; but that

it would be in the public interest to continue such privileges for a trial period of six months if said exchange, within ten days from the date of said findings and opinion, reduced the unit of trading as suggested and notified the Commission that such action had been taken; and

Said exchange having, under date of December 5, 1941, notified the Commission that the unit of trading in the subject security on said exchange has been reduced to 25 shares, effective at the opening of business on December 8, 1941, and the Commission having found in its order dated December 12, 1941, that said exchange has fulfilled the conditions specified in the aforesaid findings and opinion; and the Commission having ordered that the proceeding on the application herein be continued until June 9, 1942, or as soon thereafter as appropriate arrangements for a hearing might be made, for the taking of further evidence with respect to the questions left undecided; and

The Commission deeming it necessary for the protection of investors that a further hearing be held in this matter at which all interested persons should be given an opportunity to be heard and that general notice should be given;

It is ordered, That the matter be set down for hearing at 11 a. m. on Wednesday, July 8, 1942, in Room 318 of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, and continue thereafter at such times and places as the Commission or its officer herein designated may determine, and that general notice thereof be given; and

It is further ordered, That Charles S. Lobingier, an officer of the Commission,

be and he hereby is designated to administer oaths and affirmations, subpoena witnesses and compel their attendance, take evidence, require the production of books, papers, correspondence, memoranda, and any and all other records deemed relevant or material to the matters in issue at such hearing, and to perform all other duties in connection therewith as authorized by law.

I. The War Production Board, with the aid of the War Department, the Navy Department, the Army and Navy Munitions Board, the Maritime Commission, the Department of Agriculture, and such other departments and agencies as it may deem appropriate, shall furnish to the War Manpower Commission, current information with respect to the relative importance, in connection with the maintenance and effectuation of the national war supply program, of filling job openings in plants, factories or other facilities whose products or services are required for that program.

II. To that end, the War Production Board, with the aid of such departments and agencies, shall take such action as may be necessary or appropriate to transmit to the War Manpower Commission at its headquarters as well as in the field, information pursuant to paragraph I hereof, in a manner which will assure close contact and collaboration in all areas of operation.

CERTAIN PLACEMENT PRIORITIES

DIRECTIVE TO UNITED STATES EMPLOYMENT SERVICE

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that the war production program requires that priorities be accorded in the recruitment of workers for and the placement of workers in essential activities and that the measures hereinafter set forth will promote the proper allocation and the effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The United States Employment Service shall take such action as may be necessary or appropriate to assure that:

(a) Each local public employment office exerts its maximum efforts, including the utilization of all personnel, funds and facilities at its disposal, to expedite the recruitment and placement of all workers required for essential activities in preference to undertaking or continuing to recruit or place workers for any other activity; and

(b) Referrals are made to job openings for workers required for essential occupations, irrespective of the location of the work, in accordance with the relative need for filling such job openings under the national war supply program, as shown by information made available

by the War Production Board pursuant to the Critical War Products Directive.

II. If the United States Employment Service, on the basis of its own information or of authoritative information from other sources, has reason to believe, with respect to any plant, factory, or other facility, hereinafter referred to as an employing establishment, that:

(a) The wages and conditions of work are not at least as advantageous to a worker referred to a job opening therein, as those prevailing for similar work in similar establishments in the industrial area; or

(b) Proper measures have not been or will not be instituted to reduce or eliminate its use of or need for workers in critical war occupations by effective utilization, through training, upgrading, appropriate personnel transfers and job simplification, of the workers employed in such establishment; or

(c) Its need for additional workers in critical war occupations can be reduced or eliminated by the transfer of workers, employed in non-essential activities in such establishment or in another employing establishment, under the same ownership or control in the industrial area; the Director of the United States Employment Service may provide for excepting such establishment from the provisions of paragraph I hereof, subject to such policies, conditions, and standards as the Chairman of the War Manpower Commission may approve.

TRANSFERS TO ESSENTIAL ACTIVITIES

DIRECTIVE TO UNITED STATES EMPLOYMENT SERVICE

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that the national war supply program requires that increased efforts be made to encourage each individual who is unemployed or is not engaged in an essential activity but is capable of performing services in an essential occupation and is needed for such activity, to accept, through the United States Employment Service, suitable work in an essential activity and that the measures hereinafter set forth will promote the effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The United States Employment Service shall, as expeditiously as possible,

complete an occupational classification of each registrant under the Selective Training and Service Act of 1940, on the basis of his Selective Service Occupational Questionnaire.

II. The United States Employment Service shall request each such registrant whose occupational questionnaire indicates that (a) he is qualified to perform services in an essential occupation and (b) he was not as of the date of his filing of such questionnaire, utilizing his highest skill in an essential activity, to report to his nearest public employment office. If, through its interview of any such registrant or from other sources, the United States Employment Service finds that he is capable of performing services in an essential occupation and is not utilizing his highest skill in an essential activity, the United States Employment Service shall exert all reasonable efforts to persuade such registrant to transfer to suitable work for which he is needed in an essential activity.

III. The United States Employment Service shall maintain a complete record of and submit a full report to the Chairman of the War Manpower Commission with respect to (a) each case in which a registrant, after being offered suitable work in an essential activity pursuant to paragraph II hereof, has, without good cause, refused to accept such work, and (b) each case in which an employer or his representative, has directly or indirectly, in any manner, dissuaded or deterred or attempted to dissuade or deter, from so transferring, a registrant in his employ who is requested by a public employment office to transfer to work in an essential activity pursuant to this directive.

[Directive No. VI]

RECRUITMENT AND PLACEMENT OF ESSENTIAL AGRICULTURAL WORKERS

DIRECTIVE TO UNITED STATES EMPLOYMENT SERVICE

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that the agricultural production program contemplated by the "Food for Victory" goals prescribed by the Secretary of Agriculture pursuant to the directions of the President, renders essential the conservation and maxi-

mum utilization of available agricultural workers and the recruitment of additional agricultural workers from every appropriate source and that the measures hereinafter set forth will promote the proper allocation and effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The United States Employment Service after consultation with such bureaus, offices and divisions in the Department of Agriculture and with such other departments and agencies as it may deem appropriate, shall prepare, keep current and make available to the Department of Agriculture and other interested departments and agencies, data reporting its best estimates with respect to the available number of agricultural workers and the anticipated requirements for such workers, by periods, areas and agricultural commodities.

II. If, with respect to any area, the United States Employment Service determines after consultation with such bureaus, offices and divisions in the Department of Agriculture and other departments and agencies as it may deem appropriate, that the available number of agricultural workers is insufficient for the production, cultivation or harvesting of any agricultural commodity, essential to the effective prosecution of the war, the United States Employment Service shall take such action as may be necessary or appropriate to assure that its maximum efforts are expended in the recruitment and placement of the number of agricultural workers required for such production, cultivation or harvesting, including:

(a) The establishment and maintenance of such agricultural labor recruitment and placement services and facilities as may be necessary;

(b) The solicitation of all available workers, qualified to perform agricultural work, in projects or programs maintained by the Work Projects Administration, the National Youth Administration, the Department of Agriculture, and other appropriate private or public agencies or departments;

(c) The solicitation of qualified agricultural workers in rural and urban centers, youth groups and educational institutions;

(d) The retention for such purposes of qualified agricultural workers who might otherwise be recruited for placement in less essential industrial activities;

(e) The promotion, among growers, of the cooperative use of agricultural workers;

(f) The promotion of the maximum utilization of transient workers for such purposes by directing and guiding their movement to those areas in which non-local agricultural workers are required; and

(g) The submission, currently, to the Department of Agriculture, of all available information with respect to those areas in which and the periods and crops for which the establishment and maintenance of adequate housing facilities will

promote the recruitment and placement of required agricultural workers.

III. The United States Employment Service shall not, pursuant to this directive, recruit agricultural workers for, or refer such workers to, any agricultural employment in which the wages or conditions of work are less advantageous to the worker than those prevailing for similar work in the locality.

IV. This directive may be cited as the "Directive to Expedite the Recruitment and Placement of Essential Agricultural Workers."

ADEQUATE HOUSING FOR TRANSIENT ESSENTIAL AGRICULTURAL WORKERS

DIRECTIVE TO SECRETARY OF AGRICULTURE

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that existing and anticipated requirements for agricultural workers for the production, cultivation or harvesting of agricultural commodities essential to the effective prosecution of the war render necessary certain movements of such workers between areas and crops, that such movements will be facilitated if reasonable shelter is available for such workers, and that the measures hereinafter set forth will promote the effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The Secretary of Agriculture shall, on the basis of data made available to him from time to time by the United States Employment Service and on the basis of such other data as he may deem appropriate, prepare and keep current, information with respect to the availability of adequate housing or other types of shelter facilities in each area in which non-local agricultural workers will be required for the production, cultivation or harvesting of any agricultural commodity essential to the effective prosecution of the war.

II. If, with respect to any area, the Secretary of Agriculture determines, after consultation with the United States Employment Service and such other departments or agencies as he may deem appropriate, that existing housing facilities, including permanent or mobile Department of Agriculture labor camp facilities, are insufficient to provide adequate shelter for non-local agricultural workers required in such areas for the production, cultivation or harvesting of any agricultural commodity essential to the effective prosecution of the war, the

Secretary of Agriculture shall take such action as may be necessary or appropriate (including the utilization of all personnel, funds and facilities at his disposal therefor) to assure that:

(a) All Department of Agriculture labor camp facilities, existing or hereafter established in such area, are made available to and utilized by such workers before such facilities are made available to or are utilized by any other individuals; and

(b) Such additional Department of Agriculture labor camp facilities are established and maintained in such areas and for such periods as are necessary to provide adequate shelter for such workers.

III. The Secretary of Agriculture, after consultation with the United States Employment Service, the Office of Defense Transportation, the Office of Price Administration and such other agencies or departments as he may deem appropriate, shall take such action (including the utilization of all personnel, funds and facilities at his disposal therefor) as may be necessary or appropriate to assure that:

(a) Agricultural workers, required for the production, cultivation or harvesting of any agricultural commodity essential to the effective prosecution of the war, are provided needed transportation facilities, and

(b) Non-local agricultural workers and their families, transported or housed pursuant to this directive are provided needed health and welfare services.

IV. This directive may be cited as the "Directive to Assure Adequate Housing for Transient Essential Agricultural Workers."

By virtue of the authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9139, establishing the War Manpower Commission, and having found, after consultation with the members of the War Manpower Commission, that careful plans must be made to assure the availability of adequate transportation facilities for workers transferring to, moving between or engaged in essential activities and that the measures hereinafter set forth will promote the effective mobilization and utilization of the Nation's manpower in the prosecution of the war, it is hereby directed:

I. The United States Employment Service, the Department of Agriculture and any other department or agency of the Federal Government having infor-

mation concerning workers transferring to, moving between or engaged in essential activities, shall maintain, keep current and submit to the War Manpower Commission, for transmission from time to time to the Office of Defense Transportation, information with respect to each situation or area in which existing or anticipated transportation needs of such workers are not or will not be adequately provided for by existing and readily available transportation facilities.

II. In carrying out the functions and responsibilities vested in it by Executive Order No. 8989, as amended, particularly as such functions and responsibilities relate to assuring that adequate transportation facilities are available, as needed, to workers transferring to or moving between essential activities and to workers requiring transportation between their homes and places of employment in essential activities, the Office of Defense Transportation shall give careful consideration to the information
